

National Haitian Convention 2022

Conference Theme: CÉLÉBREZ LA VISION » en célébrant la fidélité de Dieu
“CELEBRATE THE VISION” by celebrating the faithfulness of God

It was with hearts full of gratitude and great anticipation that hundreds of Haitian Nazarenes from various districts across USA and Canada came to Port St Lucie Florida to celebrate God’s faithfulness and the accomplishment of many key objectives set by Haitian SRT Ministries for its 2020 Vision. The atmosphere was festive and celebratory.

We were blessed to have offered to our constituencies a variety of workshops ranging from Children, Youth, and Women’s Ministries as well as providing a panoramic view on the structure of the Church of the Nazarene. This was a holistic approach connecting the local congregations to their respective districts and the Global Church.

Valuable training on prayer ministry, mentoring, and mental health as well as helpful training to the local church board on financial aspect of the church were also offered. Other practical information on Church Planting has brought great excitement among our pastors and leaders, which I believe will bear great fruits in years to come.

We were fortunate to have skillful and enthusiastic presenters who were eager to share their wealth of knowledge and experience to an enthusiastic group of people, who were thirsty for this much-needed information conducive to their ministries.

As many pastors and leaders have reported to me, their only regret is that the workshops were too short, and the next convention is too long to wait for.

In addition to our superb workshops, we were blessed to have four evening of inspirational services that were uplifting, spirit filled, and transformative.

Our worship leaders were energized, electrified and spirit filled while our keynote speakers were spiritually led and the messages were powerful, full of grace, and exuberantly joyful.

It was truly a much-needed convention since our last meeting in Orlando three years ago. As the Florida District Superintendent, Rev. Dale Schaeffer stated, it was a joy to be a part of this year's National Haitian Convention. It was wonderful to hear of how God has continued to grow His church throughout the pandemic and to celebrate God's faithfulness and the fruitfulness of the ministry in the past three years in spite of the limitations of COVID 19.

Rev. Mark Bane, Director of Evangelism and New Church Development, USA and Canada, participated, and commented: “The Haitian National Convention was an amazing experience of inspiration and development. The plenary sessions and workshops were well planned and well-presented while providing diverse insights into a variety of helpful topics. Director, Pascal Permis and his support staff were organized and responsive to the needs of participants. I left the conference excited about the future of the Haitian ministry in USA/Canada.”

Again, on behalf of the Haitian SRT members and the entire Haitian constituencies, I sincerely thank everyone who has provided much needed financial, logistical, physical, and ministerial support to make this convention take place.

It is truly a testimony to what Dr. Stan Reeder stated: “The church shall not fall. It will stand as the agent of grace in this troubled world.”

Respectfully Submitted!

Rev. Dr. Pascal Permis,
Haitian Ministries Facilitator,
USA, and Canada.
